

# SuperLife KiwiSaver scheme

## SuperLife<sup>80</sup>

### Fund update for the quarter ended 30 September 2017

This fund update was first made publicly available on 25 October 2017.

### What is the purpose of this update?

This document tells you how SuperLife<sup>80</sup> has performed and what fees were charged. The document will help you to compare the fund with other funds. Smartshares Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

SuperLife<sup>80</sup> invests mostly in growth assets, with a small amount of income assets. Designed for investors that want a 'growth' investment option. Negative annual returns may occur once in every 3-5 years on average.

Total value of the fund: \$10,380,596  
 Number of investors in the fund: 419  
 The date the fund started: 16 September 2013

### What are the risks of investing?

#### Risk indicator for SuperLife<sup>80</sup> <sup>1</sup>

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2017. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement for the SuperLife KiwiSaver scheme for more information about the risks associated with investing in this fund.

## How has the fund performed?

	Past year
<b>Annual return</b> (after deductions for charges and tax)	9.93%
<b>Annual return</b> (after deductions for charges but before tax)	10.49%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	11.34%

The market index annual return is based on the weighted average annual return of the indices used to assess the performance of the assets that the fund invests in. Additional information about the market index is available on the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose).

### Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2017.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

### What fees are investors charged?

Investors in SuperLife<sup>80</sup> are charged fund charges. In the year to 31 March 2017 these were:

	% per annum of fund's net asset value
<b>Total fund charges</b>	0.65% <sup>2</sup>
Which are made up of:	
<b>Total management and administration charges</b>	0.65% <sup>2</sup>
Including:	
Manager's basic fee	0.40%
Other management and administration charges	0.25%
<b>Total performance-based fees</b>	0.00%
<b>Other charges</b>	<b>Dollar amount per investor</b>
Administration fee	\$32 per annum <sup>3</sup>

Investors may also be charged individual action fees for specific actions or decisions (for example, for transferring their investment to another KiwiSaver scheme). See the Product Disclosure Statement for SuperLife KiwiSaver scheme for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Jess had \$10,000 in the fund and did not make any further contributions. At the end of the year, Jess received a return after fund charges were deducted of \$993 (that is 9.93% of her initial \$10,000). Jess paid other charges of \$31<sup>4</sup>. This gives Jess a total return after tax of \$962 for the year.

## What does the fund invest in?

### Actual investment mix

This shows the types of assets that the fund invests in.

## Further information

You can also obtain this information, the Product Disclosure Statement for the SuperLife KiwiSaver scheme, and some additional information, from the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose).

## Notes

- 1 Market index returns (as well as actual returns) have been used to complete the risk indicator, as the fund has not been in existence for 5 years. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. The risk indicator for the fund uses 1 year of market index returns.
- 2 On 9 November 2016, the total management and administration charges changed to 0.60% per annum. As a result, the total fund charges will be different in the year to 31 March 2018.
- 3 On 9 November 2016, the administration fee changed to \$30 per annum. As a result, the amount set out in the fees table is made up of 4 months of \$2.50 per month (when the administration fee was \$30 per annum) and 8 months of \$2.75 per month (when the administration fee was \$33 per annum).
- 4 This is made up of 10 months of \$2.50 per month (when the administration fee was \$30 per annum) and 2 months of \$2.75 per month (when the administration fee was \$33 per annum).
