

# Who is SuperLife?

January 2012

SuperLife Limited is a private company and one of NZ's largest specialist superannuation providers. It provides superannuation, KiwiSaver, investment and insurance options to over 35,000 members and \$800m of assets. It is part of the New Zealand owned Aventine Group - recognised as one of the country's leading superannuation, investment and actuarial consulting firms.

The main products of SuperLife are the registered superannuation scheme and a KiwiSaver scheme. In both cases the products are called "SuperLife" and established under trusts, separate from the business activities of SuperLife Limited and Aventine. SuperLife also includes **myFutureFund** – a vehicle to help parents save for their children's future.

As a New Zealand company we are focused on providing flexible investment, savings and personal insurance protection plans for New Zealanders. Our goal is to provide the best solutions in terms of security, flexibility, convenience and value. We empower people to make their own decisions and to implement them effectively.

## A strong reputation and a solid base of clients

By using SuperLife you are in good company. Our clients include both large and small employers (local and multi-national), employees and non-employees together with those in retirement. Our employer customer's choice of SuperLife, is a significant testament to the strength, growth and stability of SuperLife, together, with the quality of the product and services we provide. ## Unrivalled experience and expertise

SuperLife has been in the superannuation business for over 13 years and has over 60 staff. Our main office is in Eden Terrace, Auckland and we have people throughout NZ.

Our directors and senior people are market leaders in the superannuation industry with an average experience of over 30 years. They have a reputation for quality and innovative thought. Applying that expertise to help you save for your retirement and manage your money and investments is our core business. We are very focussed on delivering what is best for our members.

## A structure to protect your interests

We understand that the need for the security of your money and the way your finances are handled are important to you. Therefore, our structure was set with your interests in mind. SuperLife's products are set up under trusts with a trustee whose directors are independent. This means that your investments cannot be used by the company that runs SuperLife. This also provides a clear separation between governance (the trustee's role) and management (investment managers appointed by the trustee to manage SuperLife). The trustee sets a very high standard for the selection and ongoing monitoring of the investment managers to ensure that they are the best available.

Together SuperLife's superannuation, myFutureFund and KiwiSaver products offer a complete and highly flexible solution, for KiwiSaver, other savings and insurances. We are market leaders when it comes to the things that matter most such as low fees, flexibility and service. The investment performance is both transparent and competitive.

### The legal stuff
