Notes:

- Should you elect the default option or not choose which Funds the money should come from, it will be taken from the Funds that your Account is invested in starting with the cash options, then the bonds, then the property and finally the shares as the Manager determines. This will mean that your share assets are realised last and if you have not withdrawn all of your balance, you may have an overweight exposure to shares. You should also review your investment strategy to make sure that it is appropriate after each payment.
- If you have not previously provided documents that verify your identity and your residential address to SuperLife, under the anti-money laundering legislation, you will need to provide them before a payment can be made. You may be able to do this electronically by phoning us on 0800 27 87 37.
- Payment requests are generally processed on the business day following receipt if received by midnight the previous business day. Additional security checks may be required before a withdrawal can be processed. This may include a verbal confirmation of the withdrawal.**
