Government contributions

1. If you are 18 or older and under the KiwiSaver retirement age, the government contributes to your KiwiSaver savings, \$1 for each \$2 you save, up to \$521.43 a year. This is known as a government contribution. This is based on a 1 July to 30 June year and is normally paid in July. Therefore most KiwiSaver members should contribute at least \$1042.86 per year to receive the maximum government contribution.
2. You need to be a resident in New Zealand to receive the government contribution, but you do not need to be resident to make a lump sum contribution.
