SuperLife
KiwiSaver
scheme

The KiwiSaver Default Provider (Smartshares) Notice 2021 will come into force on 28 September 2021 and the SuperLife Default Fund will become available for you to invest in from 1 December 2021.

Product Disclosure Statement

Offer of membership of the SuperLife KiwiSaver scheme

Issued by Smartshares Limited

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on disclose-register.companiesoffice.govt.nz Smartshares Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013. You can also seek advice from a financial advice provider to help you to make an investment decision.

This is a replacement product disclosure statement. It replaces the product disclosure statement dated 26 August 2021.
1. Key information summary

What is this?
This is a managed investment scheme. Your money will be pooled with other investors’ money and invested in various investments. Smartshares Limited (Smartshares, we, our or us) will invest your money and charge you a fee for our services. The returns you receive are dependent on the investment decisions of Smartshares and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this product disclosure statement.

What will your money be invested in?
The SuperLife KiwiSaver scheme (Scheme) has 44 investment options, which you can combine any way you choose:

- **SuperLife Age Steps**: An investment option where the mix of income and growth assets is automatically set based on your age. As you get older, the proportion of your investment in growth assets will be reduced, lowering the expected size of the ups and downs in the value of your investment.

- **Diversified funds**: Funds that provide a range of risk-return profiles. The funds invest in a mix of the main investment asset classes of cash, fixed interest, shares and property. If you invest in a diversified fund, it’s up to you to change funds if your risk-return profile changes.

- **Default fund**: A balanced fund which excludes investments in illegal weapons (cluster munitions, anti-personnel mines and nuclear explosive devices) and fossil fuel production. The fund will be a KiwiSaver default fund and available for you to invest in from 1 December 2021.

- **Ethical fund**: A socially responsible balanced fund which excludes assets that do not meet the fund’s defined ethical investment standards (which are available at superlife.co.nz/ethica).

- **Guest manager fund**: A fund which invests in an active fund managed by another fund manager.

- **Sector funds**: Funds invested in New Zealand, Australian and international markets that you can use to set your own investment strategy. Each sector fund invests in one of the main investment asset classes of cash, fixed interest, shares and property. If you invest in the sector funds, it’s up to you to change funds if your investment strategy changes.

Some of these investment options are summarised on pages 3 to 4. More information about the investment target and strategy for each of these investment options is provided in section 3.

The other investment options offered under this product disclosure statement are listed on page 5. A summary of the investment target and strategy, and other information about performance and fees, for each of these investment options is contained in a separate fund update. These fund updates should be read together with this product disclosure statement and are available at superlife.co.nz/legal.

Who manages the Scheme?
Smartshares is the manager of the Scheme. See section 7 for more information.

How can you get your money out?
You can withdraw your investment when you reach the age to qualify for New Zealand superannuation (currently age 65).

You can transfer your investment to another KiwiSaver scheme at any time.

In certain circumstances, you may be able to make an early withdrawal. These circumstances include the purchase of a first home, financial hardship and serious illness. See section 2 for more information.

How will your investment be taxed?
The Scheme is a portfolio investment entity (PIE).

The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (PIR). This can be 10.5%, 17.5% or 28%. See section 6 for more information.

Where can you find more key information?
We are required to publish quarterly updates for each investment option. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at superlife.co.nz/legal. We will also give you copies of fund updates on request.

</tbody>
</table>

* The risk indicators are based on returns data for the 5 years to 30 June 2021. The SuperLife Default Fund has not been in existence for 5 years, so market index returns have been used to complete the risk indicator for this fund. As a result, the risk indicator for the SuperLife Default Fund may provide a less reliable indicator of the potential future volatility of the fund. The risk indicator for the SuperLife Default Fund uses 5 years of market index returns.
SuperLife Age Steps automatically sets the proportion of your investment in income and growth assets based on your age. As you get older, the proportion of your investment in more volatile growth assets will be reduced, lowering the expected size of the ups and downs in the value of your investment. This option may be suitable if you are saving for retirement (assumed to be age 65), and assumes you will continue to invest your savings and spend them over your retirement period.

The information set out below is a representative sample of the age steps. Information about all the age steps is available at superlife.co.nz/agesteps.

The Scheme has an administration fee. The cost to you is $30 a year (regardless of the number of investment options you choose to invest in, or the number of times you change your investment options). You do not pay the fee if you have all your money invested in the SuperLife Default Fund.

You will only be charged a financial adviser fee if you have a financial adviser and have agreed with your adviser that he/she will be paid a fee for providing you financial advice. The amount of this fee is agreed between you and your financial adviser and set out in the application form.

The maximum financial adviser fee you can agree with your financial adviser is: (a) 0.5% per annum of your account balance; or (b) $500 per annum.

See section 4 for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

2. How does this investment work?

The key benefits of the Scheme are:

▶ **Low fees**: Our fees are among the lowest in the market. Low fees mean more of the investment returns go to you.

▶ **Passive investment**: We believe a passive approach to investing will deliver better long-term results for you. We don’t think that constantly changing our investments for short-term gains consistently adds value.

▶ **Flexibility**: We have no minimum savings levels.

▶ **Choice**: We have a broad range of investment options, which can be combined any way you choose and changed any time, free of charge.

The Scheme is a KiwiSaver scheme under the Financial Markets Conduct Act 2013 and will also be a Government appointed default KiwiSaver scheme from 1 December 2021. To protect the interests of investors, the Scheme’s investments are held by an independent custodian, and our operations are supervised by an independent supervisor, Public Trust. The Scheme is established as a trust and is governed by a trust deed between the supervisor and us. If there is a difference between the trust deed and the Instrument of Appointment under which the Scheme is appointed as a default KiwiSaver scheme, we must follow the Instrument of Appointment.

To minimise administration costs and keep fees low, the Scheme invests in SuperLife Invest, which is a managed investment scheme also managed by us. We do not charge you additional fees because the Scheme invests in this way.

Your money is pooled and invested with other investors’ money. Contributions are made by you and your employer.

Your money goes into an account in your name. This account is invested in one or more of the investment options chosen by you (or, if you do not choose an investment option, then SuperLife Age Steps will be used).

As an investor, you have an interest in the Scheme. However, your interest does not give you any right to any particular asset of a fund.

When you become eligible to withdraw your investment, you can do so by redeeming your interest in the Scheme for cash.

All funds have assets (the investments of the fund) and liabilities (the fees, taxes and other costs payable by the fund). All liabilities incurred in respect of a fund will be met in the first instance from the assets of that fund. If the investments in a fund are not sufficient to meet its liabilities, the investments in another fund may be used to meet those liabilities.

There is no Crown guarantee of any KiwiSaver scheme or investment product of a KiwiSaver scheme.

Responsible investment, including environmental, social and governance considerations, is taken into account in the investment policies and procedures of the Scheme as at the date of this product disclosure statement. Smartshares’ Responsible Investment Policy is available at superlife.co.nz.

The information about KiwiSaver set out below is only a summary. For more information, go to kiwisaver.govt.nz.

**Joining the Scheme**

**If you are not a KiwiSaver member**

If you are not yet a KiwiSaver member, you can join the Scheme if you are:

▶ living or normally living in New Zealand; and

▶ a New Zealand citizen, or entitled to live in New Zealand indefinitely.

**If you are already a KiwiSaver member**

If you are already a member of another KiwiSaver scheme, you can transfer your investment into the Scheme (even if you do not meet the criteria set out above). You can only be a member of one KiwiSaver scheme at a time.
If you have been automatically enrolled in the Scheme because the Scheme is your employer’s preferred KiwiSaver scheme

If your employer has chosen the Scheme as its preferred KiwiSaver scheme and you are not already a KiwiSaver member, you will automatically be enrolled in the Scheme when you start your job (you can choose to opt out between 14 and 56 days from the date you start your job).

Any special conditions that apply where an employer has chosen the Scheme as its preferred KiwiSaver scheme are set out in the PDS Supplement for your employer (PDS Supplement), which will be provided to automatically enrolled employees, together with this product disclosure statement.

If you have been automatically enrolled in or transferred to the Scheme as a default KiwiSaver member

From 1 December 2021, the Scheme will be a Government appointed default KiwiSaver scheme. This means that if you start a new job, and neither you nor your employer has chosen a specific KiwiSaver scheme to join, you may be allocated to and then automatically enrolled in the Scheme by Inland Revenue (you can choose to opt out between 14 and 56 days from the date you start your job). Inland Revenue may also transfer you to the Scheme if you were automatically enrolled in another KiwiSaver scheme, you did not make any active investment choice and that scheme lost its default KiwiSaver scheme status.

Making investments

If you are employed, contributions will be taken out of your gross (before-tax) salary or wages at the rate you have told your employer (3%, 4%, 6%, 8% or 10%). You can also make voluntary contributions at any time. If you are contributing to KiwiSaver, you may also be entitled to an employer contribution of 3% of your gross (before-tax) salary or wages. Tax will be deducted from your employer contributions.

If you are self-employed or not working, you can make voluntary contributions by regular or lump sum payments. There is no minimum contribution amount. You may be eligible to receive a Government contribution at the rate of 50 cents for each dollar you contribute, up to a maximum of $521.43 per year.

You can contribute to the Scheme in the following ways:

<table>
<thead>
<tr>
<th>Contribution method</th>
<th>Employment status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Payment through PAYE via your employer</td>
<td>✓</td>
</tr>
<tr>
<td>Regular payment by automatic payment or direct debit to us</td>
<td>✓ ✓ – ✓</td>
</tr>
<tr>
<td>Lump sum payment by automatic payment or direct debit to us or via Inland Revenue</td>
<td>✓ ✓ ✓ ✓</td>
</tr>
</tbody>
</table>

* If you are self-employed and pay yourself through the PAYE system, you will be treated as an employee and will need to make employer contributions.

You can change your contribution rate or take a savings suspension, subject to some restrictions.

If you have permanently emigrated from Australia to New Zealand, or if you are a New Zealander returning from Australia, you may be able to transfer your money in an Australian complying superannuation scheme into the Scheme.

Your contributions will be invested in the investment options you have chosen. If you are automatically enrolled in the Scheme by your employer, your contributions will be invested in SuperLife Age Steps. If you are automatically enrolled in or transferred to the Scheme by Inland Revenue, your contributions will be invested in the SuperLife Default Fund.
Withdrawing your investments

KiwiSaver is a savings initiative to help set you up for your retirement. This means that you will not usually be able to withdraw your investment until you reach the age to qualify for New Zealand superannuation (currently age 65).

Once you are able to withdraw your investment, you may withdraw your investment by making regular or lump sum withdrawals or by withdrawing the full amount. You may also continue to make contributions to the Scheme.

Early withdrawals are permitted in limited circumstances. The main types of early withdrawals available and what you can withdraw are set out below.

KiwiSaver members impacted by the 5-year lock in period that applied before 1 July 2019 (i.e. members who enrolled before 1 July 2019, and who were aged between 60 and 64 inclusive when they enrolled) can elect to opt out of this lock in period any time after they reach the age to qualify for New Zealand superannuation (currently age 65). However, this means they will no longer be eligible for compulsory employer contributions or Government contributions.

<table>

</tr>
</tbody>
</table>

¹ For a purchase of first home withdrawal, you must leave at least $1,000, plus any money you transferred from an Australian complying superannuation scheme, in your account after the withdrawal.

² If you received the $1,000 kick-start contribution from the Government, you cannot withdraw this contribution when making a significant financial hardship withdrawal.

³ Your investment will be transferred to an Australian complying superannuation scheme (which is an Australian superannuation scheme that has membership criteria similar to KiwiSaver).
You can also transfer your investment to another KiwiSaver scheme at any time. You can only be a member of one KiwiSaver scheme at a time.

If you die, we will pay your investment to your personal representatives (the executors or administrators of your estate) or otherwise in accordance with law.

If you’ve transferred savings from a foreign superannuation scheme to a KiwiSaver scheme you may be required to pay additional tax or make a student loan repayment. If this is the case, you may be able to withdraw some of your KiwiSaver savings for the repayment.

Withdrawals may also be required by law (for example, if a court orders the release of money from your account).

We may, in limited circumstances, suspend processing withdrawal requests (including where we cannot sell enough assets of a fund to satisfy a withdrawal request, or if we consider a withdrawal could be detrimental to other investors in a fund).

How to switch between investment options

You can switch your investment from one investment option to another investment option at any time free of charge.

You also have the flexibility to leave your existing investment in your current investment options, and just change the investment options that your future contributions are allocated to.

You can do this at superlife.co.nz or by completing a change investment strategy form (which is available online) and providing it to us.

We may, in limited circumstances, suspend processing requests to switch between investment options. We can set requirements for switching, including minimum switch amounts and restrictions on redirecting contributions to another fund.

* The risk indicators are based on returns data for the 5 years to 30 June 2021. The SuperLife Default Fund has not been in existence for 5 years, so market index returns have been used to complete the risk indicator for this fund. As a result, the risk indicator for the SuperLife Default Fund may provide a less reliable indicator of the potential future volatility of the fund. The risk indicator for the SuperLife Default Fund uses 5 years of market index returns.
SuperLife Age Steps automatically sets the proportion of your investment in income and growth assets based on your age. As you get older, the proportion of your investment in more volatile growth assets will be reduced, lowering the expected size of the ups and downs in the value of your investment. This option may be suitable if you are saving for retirement (assumed to be age 65), and assumes you will continue to invest your savings and spend them over your retirement period.

The information set out below is a representative sample of the age steps. Information about all the age steps is available at superlife.co.nz/agesteps.

The Statement of Investment Policy and Objectives (SIPO) for the Scheme sets out the investment policies and objectives for the Scheme. The SIPO also sets out the target investment mix and investment mix ranges (minimum and maximum limits) for each fund. We may change the SIPO at any time following consultation with the supervisor. We will give you at least 30 days’ notice of any change that is expected to have a material effect on you.

The SIPO is available at superlife.co.nz/legal. Material changes to the SIPO will be described in the Scheme’s annual report.

Further information about the assets in each investment option can be found in the fund updates at superlife.co.nz/legal.
4. What are the risks of investing?

Understanding the risk indicator

Funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

<table>
<thead>
<tr>
<th>Lower risk</th>
<th>Higher risk</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 2 3 4 5 6 7</td>
<td>Potentially lower return</td>
</tr>
</tbody>
</table>

See section 3 for the risk indicators which have been calculated for each of the investment options described in this product disclosure statement.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the investment option’s assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of an investment option’s future performance. The risk indicator is based on the returns data for 5 years to 30 June 2021. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for each of the investment options.

General investment risks

When you invest, there is always a risk that the outcome is not what you expected or hoped for. This could be because: (a) the return on your investment was negative or low; or (b) your chosen investment strategy was not always suited to your goals.

Some of the things that may cause a fund’s value to move up and down, which affect the risk indicator, are:

- **Market risk**: The risk that a market or a sector of a market that a fund invests in declines.
- **Individual financial product risk**: The risk that changes in the financial condition or credit rating of an issuer of a financial product causes the value of a financial product held by a fund to decline.
- **Liquidity risk**: The risk that an investment is difficult to buy or sell and a fund suffers a loss as a result.
- **Currency risk**: The risk that changes in exchange rates cause the value of an international investment to reduce.
- **Credit risk**: The risk that issuers of fixed interest or cash investments do not pay interest and/or capital repayments when these are due.
- **Interest rate risk**: The risk that interest rates rise and the value of investments (in particular, fixed interest and cash investments) reduce.

See the ‘Other Material Information’ document on the offer register at disclose-register.companiesoffice.govt.nz for further information about the risks of investing in the Scheme.
5. What are the fees?

You will be charged fees for investing in the Scheme. Fees are deducted from your investment and will reduce your returns. If we invest in other funds, those funds may also charge fees (these fees are included in the fund charges below). The fees you pay will be charged in two ways:

- regular charges (for example, fund charges). Small differences in these fees can have a big impact on your investment over the long term; and
- one-off fees (currently none).

These are as follows:

<table>
<thead>
<tr>
<th>Funds</th>
<th>Fund charges (% per annum of the fund’s net asset value)</th>
<th>Other fees and individual action fees</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Diversified funds</strong></td>
<td></td>
<td>Administration fee – $30 a year (regardless of the number of investment options you invest in, or the number of times you change investment options). You do not pay the fee if you have all your money invested in the SuperLife Default Fund. Financial adviser fee - you will only be charged this fee if you have a financial adviser and have agreed with your adviser that he/she will be paid a fee for providing you financial advice. The amount of this fee is to be agreed between you and your financial adviser and set out in the application form. The maximum financial adviser fee you can agree with your financial adviser is: (a) 0.5% per annum of your account balance, or (b) $500 per annum.</td>

</table>

The fund charges for investing in the full range of guest manager and sector funds are available at [superlife.co.nz](http://superlife.co.nz).
The fund charges set out on page 16 are deducted from, and reflected in the value of, the fund. The fund charges cover our manager’s fee and other management and administration charges (supervisor, audit and legal costs). The fund charges for SuperLife Age Steps are estimates based on the target investment mix of underlying funds for each age step. The fund charges actually charged may differ from the estimate if the actual investment mix of underlying funds for your investment differs from the target because of market movements.

The administration fee is deducted from your account balance each month.

The financial adviser fee (if applicable) is deducted from your account balance each day and paid to your financial adviser.

The financial adviser fee is not deducted when we calculate the PIE tax you pay. This means that if you are being charged this fee, you should discuss with your accountant or tax adviser whether you can seek a deduction for this fee by including it in your tax return. The annual tax statements we send you will set out how much you have paid in financial adviser fees.

We will stop charging you the financial adviser fee if you tell us to stop (for example, if you no longer use your financial adviser).

We may, in exceptional circumstances, deduct costs that relate to the Scheme that arise outside the ordinary course of business from a fund (such occasions are likely to be very rare).

The fees set out on page 16 include GST where applicable.

If you are transferred to the Scheme by Inland Revenue, you may be charged a buy spread reflecting the estimated cost of buying underlying investments held by the SuperLife Default Fund. The buy spread is intended to ensure that any transaction costs associated with investors entering the fund are paid by those investors and not the other investors in that fund. We do not receive any benefit from it.

Example of how fees apply to an investor

Brett invests $10,000 in the SuperLife Growth Fund. He is charged fund charges, which work out to about $61 (0.61% of $10,000). These fees might be more or less if his account balance has increased or decreased over the year.

Over the next year, Brett pays other charges of $30 – Brett does not have a financial adviser.

Estimated total fees for the first year

Fund charges: $61
Other charges: $30

See the latest fund update for the SuperLife Growth Fund for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the SuperLife Growth Fund. If you are considering investing in other investment options in the Scheme, this example may not be representative of the actual fees you may be charged.

The fees can be changed

We can agree to reduce fees for some groups of investors

We may change the fees payable by an investor at any time. Where we increase a fee, we will give you notice of the change.

We must publish a fund update for each investment option showing the fees actually charged during the most recent year. Fund updates, including past updates, are available at superlife.co.nz/legal.
6. What taxes will you pay?

The Scheme is a portfolio investment entity (PIE). The amount of tax you pay is based on your PIR. To determine your PIR, go to ird.govt.nz/roles/portfolio-investment-entities/find-my-prescribed-investor-rate. If you are unsure of your PIR, we recommend you seek professional advice or contact Inland Revenue. It is your responsibility to tell us your PIR when you invest or if your PIR changes. If you do not tell us, a default rate may be applied. If the rate applied to your PIE income is lower than your correct PIR, you will be required to pay any tax shortfall as part of the income tax year-end process. If the rate applied to your PIE income is higher than your PIR, any tax over-withheld will be used to reduce any income tax liability you may have for the tax year and any remaining amount will be refunded to you.
7. Who is involved?

About the manager
Smartshares is a fund manager. It is a wholly-owned subsidiary of NZX Limited.

Our contact details are:
Smartshares
PO Box 105262
Auckland 1143
Telephone: 0800 27 87 37
Email: superlife@superlife.co.nz

</tbody>
</table>
8. How to complain

Manager
Complaints about your investment or the Scheme can be made to us at:
Complaints – SuperLife
Smartshares
PO Box 105262
Auckland 1143
Telephone: 0800 27 87 37
Email: complaints@superlife.co.nz

Supervisor
If you make a complaint to us, and the complaint cannot be resolved, you may refer it to the supervisor at:
Complaints
Public Trust
PO Box 1598
Shortland Street
Auckland 1140
Telephone: 0800 371 471
Email: cts.enquiry@publictrust.co.nz

Independent dispute resolution scheme
We are a member of the Financial Services Complaints Limited Scheme (the supervisor is also a member), which is an independent dispute resolution scheme. If you make a complaint to us (or the supervisor), and the complaint cannot be resolved, you may refer it to Financial Services Complaints Limited at:
Financial Services Complaints Limited
PO Box 5967
Wellington 6140
Telephone: 0800 347 257
Email: complaints@fscl.org.nz
The Financial Services Complaints Limited Scheme will not charge you a fee to investigate or resolve a complaint.

9. Where you can find more information

Further information relating to the Scheme and investment options, including financial statements, annual reports, fund updates and the SIPO, is available on the offer register and the scheme register at disclose-register.companiesoffice.govt.nz. A copy of the information on the offer register or scheme register is available on request to the Registrar of Financial Service Providers.

The information set out above is available at superlife.co.nz/legal or by contacting us. You can obtain an estimate of the value of your investment online or via our mobile app or by contacting us. This information is available free of charge. See section 7 for our contact details.

You will be sent annual tax statements, which will include the amount of PIE income attributed to you and the amount of PIE tax paid at your PIR.

You can obtain general information about the Scheme and investment options at superlife.co.nz.

If your employer has chosen the Scheme as its preferred KiwiSaver scheme and you are automatically enrolled in the Scheme when you start your job, special conditions may apply. These special conditions will be set out in the PDS Supplement, which will be provided to automatically enrolled employees, together with this product disclosure statement. The PDS Supplement is also available by contacting us. See section 7 for our contact details.

10. How to apply

To invest in the Scheme, you can apply at superlife.co.nz or complete the application form attached to this product disclosure statement and send it to us.
SuperLife KiwiSaver scheme application form

To apply to join the SuperLife KiwiSaver scheme (Scheme), go to superlife.co.nz, or complete this application form and email it to us at superlife@superlife.co.nz or post it to us at PO Box 105262, Auckland 1143.

Town/City:

Post code:

Non-employees and extra savings

Complete this part if you are not an employee or if you want to make extra savings

If you are self-employed or not working, you can make voluntary contributions by regular or lump sum payments. There is no minimum contribution amount. If you want to make voluntary contributions, please complete the attached direct debit authority form and return it with this application form.

I want to save an initial sum of $ ___________________________

and I want to save $ ___________________________

(Tick one)  [ ] Week  [ ] Fortnight  [ ] Month
## 5. Investment strategy

**Tick one investment strategy option**

### SuperLife Age Steps

SuperLife Age Steps automatically sets the proportion of your investment in income and growth assets based on your age. As you get older, the proportion of your investment in more volatile growth assets will be reduced, lowering the expected size of the ups and downs in the value of your investment.

### Diversified funds

- **SuperLife Income Fund**: Invests in income assets. Designed for investors that want an investment in New Zealand and international fixed interest.
- **SuperLife Conservative Fund**: Invests mostly in income assets. Designed for investors that want a conservative investment option.
- **SuperLife Balanced Fund**: Invests in a mix of income and growth assets. Designed for investors that want a balanced investment option.
- **SuperLife Growth Fund**: Invests mostly in growth assets. Designed for investors that want a growth investment option.
- **SuperLife High Growth Fund**: Invests in growth assets. Designed for investors that want an aggressive investment option that invests in shares and property.

### Default fund

SuperLife Default Fund: Invests in a mix of income and growth assets. Designed for investors that want a balanced investment option. Excludes investments in illegal weapons (cluster munitions, anti-personnel mines and nuclear explosive devices) and fossil fuel production. The fund will be a KiwiSaver default fund and available for you to invest in from 1 December 2021.

### Ethical fund

Ethica Fund: Invests in a mix of income and growth assets. Designed for investors that want a balanced investment option. A socially responsible fund which excludes assets that do not meet the fund’s defined ethical investment standards.

### Sector fund – cash

NZ Cash Fund: Invests in New Zealand cash and designed to outperform (before tax, fees and other expenses) the S&P/NZX Bank Bill 90-Day Index over rolling one-year periods.

### Set your own investment strategy

**My Mix**: If you tick this option, please complete the My Mix investment strategy section on page 6.

## 6. Personal information

The information in this application form, and any information you provide us at later dates, will be collected, used, stored and disclosed as set out in our privacy policy at superlife.co.nz/legal/privacy-policy.
7. Member agreement

Do not complete this section if the member is under age 16

I confirm that I have received the SuperLife KiwiSaver scheme Product Disclosure Statement and apply to join the Scheme.

If I have chosen to invest in a guest manager or sector fund (other than the NZ Cash Fund), Smartshares will send me a fund update for the fund before taking contributions.

I authorise you to receive contributions from Inland Revenue for my KiwiSaver account and to contact my existing KiwiSaver provider (if any), providing personal information as necessary, to transfer all balances to my account.

I understand that SuperLife will send me statements and other communications by email, unless I request that they be sent by post.

Member signature: ________________________________

Date: (dd/mm/yyyy) ________________________________

8. Financial adviser (if applicable)

Complete this section if you have a financial adviser and have agreed with the adviser that he/she will be paid a fee for providing you with financial advice

Financial adviser fee:

% per annum of your account balance or $ per annum (complete the fee amount you have agreed with your adviser). The maximum financial adviser fee you can agree with your financial adviser is: (a) 0.5% per annum of your account balance; or (b) $500 per annum.

Financial adviser details

Name: ________________________________

Company name: ________________________________

Phone: ________________________________

Mobile: ________________________________

Email: ________________________________

I instruct you to charge me the financial adviser fee and pay it to my financial adviser. I authorise you to disclose information about me and my investments to my financial adviser (and his/her company). I understand that the financial adviser fee will be deducted from my account balance.

I will tell you if I want you to stop charging the financial adviser fee (for example, if I no longer use my financial adviser).

Member signature: ________________________________

Date: (dd/mm/yyyy) ________________________________

The financial adviser must have signed a Financial Adviser Agreement with us.
9. Members under age 18 (if applicable)

Complete this section if the member is under age 18

Under age 16
If the member is under age 16, the member does not need to sign on page 4, but the member’s guardian(s) must sign and provide their details below. If the member has joint guardians, both guardians must sign and provide details (even if the guardians are the member’s parents and they have separated).

Age 16 or age 17
If the member is age 16 or 17, the member must sign on page 4 and any one of the member’s guardians must sign and provide his/her details below.

I/We confirm that I/we have received the SuperLife KiwiSaver scheme Product Disclosure Statement and apply on behalf of the member to join the Scheme.

I/We confirm that I am/we are the legal guardian(s) of the member and provide evidence of my/our identity and of my/our guardianship status (for example, a copy of the member’s birth certificate or a guardian statutory declaration form – you can obtain this form by calling 0800 27 87 37 or emailing superlife@superlife.co.nz).

If you have entered $ amounts in the initial investment and/or future investment column(s) above, they must add up to the initial savings amount and/or recurring savings amount specified in the savings section on page 2. If you have entered % amounts, they must add up to 100%.

Income
Each fund receives income (for example, interest and dividends) as part of its overall investment return. Our standard practice is to automatically reinvest the income into the fund it came from. However, another option is to invest the income into the NZ Cash Fund – this may be a better option for you, particularly if you have reached age 65 and are making regular withdrawals from the Scheme.

Tick one income option:
- I want each fund’s income reinvested into the fund it came from (standard practice).
- I want each fund’s income invested in the NZ Cash Fund.

Rebalancing
Over time, market movements will change the proportions of your investments so that they differ from the proportions you set in your My Mix investment strategy. The following options let you choose whether we rebalance your investments (i.e. move money between your funds) to maintain these proportions.

Tick one rebalancing option:
- Option 1 – Standard rebalancing
  - Our standard practice is to regularly rebalance your investments (normally each month) to maintain the proportions you set in your My Mix investment strategy.
- Option 2 – No rebalancing
  - You can choose not to have your investments rebalanced. If you choose this option, the proportions of your investments will change with market movements.
- Option 3 – Regular withdrawal rebalancing
  - This option is designed for investors that want to: (a) reduce the risk of withdrawing money from funds that invest in shares and property at a time when the value of those funds has fallen; and/or (b) maintain a minimum level of cash and/or fixed interest.

If you choose this option, we will regularly rebalance your investments (normally each month) to maintain the proportions set in your My Mix investment strategy; however, we will only rebalance by moving money from higher volatility funds (for example, funds that invest in shares and property) to lower volatility funds (for example, funds that invest in fixed interest and cash), and will not move money the other way – this may be a better option for you, particularly if you have reached age 65 and are making regular withdrawals from the Scheme.
Direct debit authority form

To set up a recurring direct debit from your bank account to SuperLife, complete this form and email it to us at superlife@superlife.co.nz or post it to us at PO Box 105262, Auckland 1143.

Specific terms and conditions

You may ask your bank to reverse a direct debit up to 120 calendar days after the debit if you don’t receive written notice of the amount and date of each direct debit from the initiator, or you receive written notice but the amount or the date of debiting is different from the amount or the date specified on the notice.

The initiator is required to give you written notice of the amount and date of each direct debit in a series of direct debits no later than the date of the first direct debit in the series. The notice is to include the dates of the debits and the amount of each direct debit.

If the bank dishonours a direct debit but the initiator sends the direct debit again within five business days of the dishonour, the initiator is not required to give you a second notice of the amount and date of the direct debit.

Insurance only – if the initiator proposes to change an amount or date of a direct debit specified in the notice, the initiator is required to give you notice no less than 30 calendar days before the change or, if the initiator’s bank agrees, no less than ten calendar days before the change.
