

Fund Update

SuperLife Invest

Ethica

For the quarter ended 31 March 2017.

This fund update was first made publicly available on 28 April 2017.

What is the purpose of this update?

This document tells you how Ethica has performed and what fees were charged. The document will help you to compare the fund with other funds. Smartshares Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

Ethica is a socially responsible fund that invests in a balanced mix of income and growth assets. Excludes assets that do not meet ethical investment standards. Negative annual returns may occur once in every 5 - 7 years on average.

| | |
|----------------------------------|-----------------|
| Total value of the fund: | \$33,580,690 |
| Number of investors in the fund: | 21 |
| The date the fund started: | 28 October 2016 |

What are the risks of investing?

Risk indicator for Ethica ¹

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2017. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement for SuperLife Invest for more information about the risks associated with investing in this fund.

How has the fund performed?

| | Past year |
|--|----------------|
| Annual return (after deductions for charges and tax) | Not applicable |
| Annual return (after deductions for charges but before tax) | Not applicable |
| Market index annual return (reflects no deduction for charges and tax) | 7.34% |

The market index annual return is based on the weighted average return of the market indices used to measure performance of the underlying assets. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose.

What fees are investors charged?

Investors in Ethica are charged fund charges. These are as follows:

| | % per annum of fund's net asset value |
|---|---------------------------------------|
| Total fund charges (estimate) | 0.59% ² |
| Which are made up of: | |
| Total management and administration charges (estimate) | 0.59% ² |
| Including: | |
| Manager's basic fee | 0.55% |
| Other management and administration charges (estimate) | 0.04% ² |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor |
| Administration fee | \$12 per annum |
| Paper statements fee | \$18 per annum ³ |

Investors will not be charged individual action fees for specific actions or decisions. See the "Other Information – Fees" document on the offer register at www.business.govt.nz/disclose for more information about the fees investors are charged.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Jess had \$10,000 in the fund on 28 October 2016 and did not make any further contributions. On 31 March 2017, Jess received a return after fund charges were deducted of \$430 (that is 4.30% of her initial \$10,000). Jess paid other charges of \$5 (Jess received statements and other SuperLife communications electronically and was not charged the paper statements fee). This gives Jess a total return after tax of \$425 for the 5 months and 4 days.

What does the fund invest in?

Actual investment mix

This shows the types of assets that the fund invests in.

Further information

You can also obtain this information, the Product Disclosure Statement for SuperLife Invest, and some additional information, from the offer register at www.business.govt.nz/disclose.

Notes

- 1 Market index returns (as well as actual returns) have been used to complete the risk indicator, as the fund has not been in existence for 5 years. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. The risk indicator for the fund uses 4 years and 7 months of market index returns.
- 2 Estimates have been used to calculate the other management and administration charges. These estimates are based on our experience in respect of the other SuperLife managed investment schemes we manage and assume that the fund's actual investment mix will be consistent with the target investment mix set out in this fund update.
- 3 You will only be charged this fee if you choose to receive statements and other SuperLife communications in paper form.
