

What fees are investors charged?

Investors in SuperLife^{Age Steps} - Age 70 are charged fund charges. These are as follows:

	% per annum of stage's net asset value
--	--

Total fund charges (estimate)	0.47% ²
--------------------------------------	--------------------

Which are made up of:

Total management and administration charges (estimate)	0.47% ²
---	--------------------

Including:

Manager's basic fee	0.26%
Other management and administration charges (estimate)	0.21%

Total performance-based fees	0.00%
-------------------------------------	-------

Other charges	Dollar amount per investor
Administration fee	\$12 per annum
Paper statements fee	\$18 per annum ³

Investors will not be charged individual action fees for specific actions or decisions. See the Product Disclosure Statement for SuperLife Invest for more information about the fees investors are charged.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Jess had \$10,000 in the stage on 28 October 2016 and did not make any further contributions. On 30 September 2017, Jess received a return after fund charges were deducted of \$678 (that is 6.78% of her initial \$10,000). Jess paid other charges of \$11 (Jess received statements and other SuperLife communications electronically and was not charged the paper statements fee). This gives Jess a total return after tax of \$667 for the 11 months and 3 days.

Further information

You can also obtain this information, the Product Disclosure Statement for SuperLife Invest, and some additional information, from the offer register at www.business.govt.nz/disclose.

Notes

- 1 Market index returns (as well as actual returns) have been used to complete the risk indicator as SuperLife^{Age Steps} – Age 70 invests in SuperLife^{Income} and SuperLife¹⁰⁰ (together with the NZ Cash Fund), which have not been in existence for 5 years. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of SuperLife^{Age Steps} – Age 70. The risk indicator for SuperLife^{Age Steps} – Age 70 uses 4 years and 1 month of market index returns for SuperLife^{Income} and SuperLife¹⁰⁰.
- 2 Estimates have been used to calculate the other management and administration charges. These estimates are based on our experience in respect of the other SuperLife managed investment schemes we manage and assume that the stage's actual investment mix will be consistent with the target investment mix set out in this investment update.
- 3 You will only be charged this fee if you choose to receive statements and other SuperLife communications in paper form.
