

## Fund Update

### SuperLife KiwiSaver scheme

#### NZ Bonds Fund

For the quarter ended 30 September 2016

This fund update was first made publicly available on 3 November 2016.

#### What is the purpose of this update?

This document tells you how the NZ Bonds Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Smartshares Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### Description of this fund

The NZ Bonds Fund is designed to provide a return (after tax, fees and other expenses) that reflects the after-tax return on the New Zealand bond market.

Total value of the fund:	\$29,823,061
Number of investors in the fund:	4,194
The date the fund started:	24 October 2007

#### What are the risks of investing?

##### Risk indicator for the NZ Bonds Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.sorted.org.nz/tools/investor-kickstarter>

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2016. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

**Other specific risks**

There are other risks that may increase the risk to returns for investors, which are not reflected in the risk indicator. These risks include investment management risk. In particular, while SuperLife KiwiSaver’s philosophy is that a passive approach to investing will deliver better long-term results, we make some active management decisions. There is a risk that this may result in the fund achieving a return that is lower than the investment objective for the fund.

See the “Other Information – Risks” document on the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose) for further information.

**How has the fund performed?**

	Average over past 5 years	Past year
<b>Annual return</b> (after deductions for charges and tax)	4.59%	4.61%
<b>Annual return</b> (after deductions for charges but before tax)	6.18%	5.23%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	5.33%	6.62%

The market index annual return is based on the annual return for the S&P/NZX A-Grade Corporate Bond Index. Additional information about the market index is available on the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose)

**Annual return graph**

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2016.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

### What fees are investors charged?

Investors in the NZ Bonds Fund are charged fund charges. In the year to 31 March 2016 these were:

	% per annum of fund's net asset value
<b>Total fund charges</b>	0.56%
Which are made up of:	
<b>Total management and administration charges</b>	0.56%
Including:	
Manager's basic fee	0.35%
Other management and administration charges	0.21%
<b>Total performance-based fees</b>	0.00%
<b>Other charges</b>	Dollar amount per investor
Administration fee	\$30 per annum

The Scheme has a transfer fee. You will be charged this fee if you transfer your investment to another KiwiSaver scheme. The fee is \$100.

See the "Other Information – Fees" document on the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose) for further information about the fees you will be charged for investing in the SuperLife KiwiSaver scheme.

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Jess had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jess received a return after fund charges were deducted of \$461 (that is 4.61% of her initial \$10,000). Jess paid other charges of \$30. This gives Jess a total return after tax of \$431 for the year.
