

# SuperLife UK pension transfer scheme

## SuperLife<sup>100</sup>

### Fund update for the quarter ended 30 June 2018

This fund update was first made publicly available on 25 July 2018.

### What is the purpose of this update?

This document tells you how SuperLife<sup>100</sup> has performed and what fees were charged. The document will help you to compare the fund with other funds. Smartshares Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

Invests in growth assets. Designed for investors that want an aggressive investment option that invests in shares and property. Negative annual returns may occur once in every 2-4 years on average.

Total value of the fund:	\$6,065,914
Number of investors in the fund:	45
The date the fund started:	15 September 2013

### What are the risks of investing?

#### Risk indicator for SuperLife<sup>100</sup> 1

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

### Annual return graph

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 June 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement for the SuperLife UK pension transfer scheme for more information about the risks associated with investing in this fund.

### How has the fund performed?

	Past year
<b>Annual return</b> (after deductions for charges and tax)	9.28%
<b>Annual return</b> (after deductions for charges but before tax)	8.73%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	13.91%

The market index annual return is based on the weighted average annual return of the market indices used to measure the performance of the assets that the fund invests in. Additional information about the market index is available in the 'Other Material Information' document on the offer register at

[www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz).

The market index was changed on 29 June 2018 to ensure the index that the fund is measured against is better aligned to the assets the fund holds.

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2018.

**Important:** This does not tell you how the fund will perform in the future.

### What fees are investors charged?

Investors in SuperLife<sup>100</sup> are charged fund charges. In the year to 31 March 2018 these were:

	% per annum of fund's net asset value
<b>Total fund charges</b>	0.63%
Which are made up of:	
<b>Total management and administration charges</b>	0.63%
Including:	
Manager's basic fee	0.32%
Other management and administration charges	0.31%
<b>Other charges</b>	<b>Dollar amount per investor</b>
Administration fee	\$60 per annum

Investors may also be charged individual action fees for specific actions or decisions (for example, for transferring money into the scheme from a UK pension scheme). See the Product Disclosure Statement for the SuperLife UK pension transfer scheme for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Jess had \$10,000 in the fund and did not make any further contributions. At the end of the year, Jess received a return after fund charges were deducted of \$928 (that is 9.28% of her initial \$10,000). Jess paid other charges of \$60. This gives Jess a total return after tax of \$868 for the year.

## Further information

You can also obtain this information, the Product Disclosure Statement for the SuperLife UK pension transfer scheme, and some additional information, from the offer register at [www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz).

## Notes

- Market index returns (as well as actual returns) have been used to complete the risk indicator, as the fund has not been in existence for 5 years. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. The risk indicator for the fund uses 3 months of market index returns.
