

SuperLife UK pension transfer scheme

SuperLife Age Steps - Age 30¹

Investment update for the quarter ended 30 September 2019

This investment update was first made publicly available on 25 October 2019.

What is the purpose of this update?

This document tells you how SuperLife Age Steps - Age 30 (the **stage**) has performed and what fees were charged. The document will help you to compare the stage with other funds. Smartshares Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this stage

SuperLife Age Steps automatically sets the proportion of your investment in income and growth assets based on your age. As you get older, the proportion of your investment in more volatile growth assets will be reduced, lowering the expected size of the ups and downs in the value of your investment. This option may be suitable if you are saving for retirement (assumed to be age 65), and assumes you will continue to invest your savings and spend them over your retirement period.

Your SuperLife Age Steps - Age 30 investment will be allocated 20.8% to income assets and 79.2% to growth assets.

Total value of the stage: -
 Number of investors in the stage: -
 The date the stage started: 15 September 2013

What are the risks of investing?

Risk indicator for SuperLife Age Steps - Age 30

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the stage's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a stage's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future investment updates.

See the Product Disclosure Statement for the SuperLife UK pension transfer scheme for more information about the risks associated with investing in this stage.

How has the stage performed?

| | Average over past 5 years | Past year |
|--|---------------------------|-----------|
| Annual return (after deductions for charges and tax) | 7.64% | 5.47% |
| Annual return (after deductions for charges but before tax) | 8.31% | 5.86% |
| Market index annual return (reflects no deduction for charges and tax) | 9.35% | 7.99% |

The market index annual return is based on the weighted average annual return of the market indices used to measure the performance of the assets that the stage invests in. Additional information about the market index is available in the 'Other Material Information' document on the offer register at www.disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the stage started. The last bar shows the average annual return since the stage started, up to 30 September 2019.

Important: This does not tell you how the stage will perform in the future.

What fees are investors charged?

Investors in the SuperLife Age Steps - Age 30 are charged fund charges. In the year to 31 March 2019 these were:

| | % per annum of stage's net asset value |
|--|--|
| Total fund charges | 0.63% |
| Which are made up of: | |
| Total management and administration charges | 0.63% |
| Including: | |
| Manager's basic fee | 0.44% |
| Other management and administration charges | 0.19% |
| Other charges | Dollar amount per investor |
| Administration fee | \$60 per annum |

Investors may also be charged individual action fees for specific actions or decisions (for example, for transferring money into the scheme from a UK pension scheme). See the Product Disclosure Statement for the SuperLife UK pension transfer scheme for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

GST is included in the fund charges set out above.

Example of how this applies to an investor

Jess had \$10,000 in the stage and did not make any further contributions. At the end of the year, Jess received a return after fund charges were deducted of \$547 (that is 5.47% of her initial \$10,000). Jess paid other charges of \$60. This gives Jess a total return after tax of \$487 for the year.
