What are the risks of investing?

Risk indicator for the SuperLife Conservative Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

Annual return graph

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 June 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement for the SuperLife UK pension transfer scheme for more information about the risks associated with investing in this fund.

How has the fund performed?

| | Average over past 5 years | Past year |
|--|---------------------------|-----------|
| Annual return (after deductions for charges and tax) | 2.44% | -6.58% |
| Annual return (after deductions for charges but before tax) | 3.24% | -6.27% |
| Market index annual return (reflects no deduction for charges and tax) | 3.97% | -6.37% |

The market index annual return is based on the weighted average annual return of the market indices used to measure the performance of the assets that the fund invests in. Additional information about the market index is available in the 'Other Material Information' document on the offer register at disclose-register.companiesoffice.govt.nz.

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2022.

Important: This does not tell you how the stage will perform in the future.

Returns in this update are after tax at 28%.

What fees are investors charged?

Investors in the SuperLife Conservative Fund are charged fund charges. In the year to 31 March 2022 these were:

| | % per annum of fund's net asset value |
|--|---------------------------------------|
| Total fund charges | 0.68% |
| Which are made up of: | |
| Total management and administration charges | 0.68% |
| Including: | |
| Manager's basic fee | 0.67% |
| Other management and administration charges | 0.01% ¹ |
| Other charges | Dollar amount per investor |
| Administration fee | \$60 per annum |

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Product Disclosure Statement for the SuperLife UK pension transfer scheme for more information about those fees.

The fees set out above include GST where applicable.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Jess had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jess incurred a loss after fund charges were deducted of -\$658 (that is -6.58% of her initial \$10,000). Jess paid other charges of \$60. This gives Jess a total loss after tax of -\$718 for the year.
