

SuperLife UK pension transfer scheme

Australian Shares Fund

This is a replacement fund update dated 27 July 2022, which replaces the previous fund update dated 3 May 2022. The table in the "What fees are investors charged?" section has been updated to show the corrected Manager's basic fee, total management and administration charges and total fund charges that were actually charged to investors in the year ending 31 March 2022. They were previously incorrectly published as 0.10% lower than the actual fund charges, as they did not include a 0.10% fee increase that took effect on 1 April 2021.

Fund update for the quarter ended 31 March 2022

This fund update was first made publicly available on 27 July 2022.

What is the purpose of this update?

This document tells you how the Australian Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Smartshares Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

Invests in Australian shares and is designed to reflect the return (before tax, fees and other expenses) of the Australian share market.

Total value of the fund:	\$812,741
Number of investors in the fund:	32
The date the fund started:	24 July 2012

What are the risks of investing?

Risk indicator for the Australian Shares Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement for the SuperLife UK pension transfer scheme for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	7.12%	14.26%
Annual return (after deductions for charges but before tax)	8.33%	15.36%
Market index annual return (reflects no deduction for charges and tax)	9.16%	14.67%

The market index annual return is based on the annual return of the S&P/ASX 200 Index (75% hedged to the New Zealand dollar). Additional information about the market index is available in the 'Other Material Information' document on the offer register at disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2022.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at 28%.

What fees are investors charged?

Investors in the Australian Shares Fund are charged fund charges. In the year to 31 March 2022 these were:

	% per annum of fund's net asset value
Total fund charges	0.70%
Which are made up of:	
Total management and administration charges	0.70%
Including:	
Manager's basic fee	0.69%
Other management and administration charges	0.01% ¹
Other charges	Dollar amount per investor
Administration fee	\$60 per annum

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Product Disclosure Statement for the SuperLife UK pension transfer scheme for more information about those fees.

The fees set out above include GST where applicable.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Jess had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jess received a return after fund charges were deducted of \$1,426 (that is 14.26% of her initial \$10,000). Jess paid other charges of \$60. This gives Jess a total return after tax of \$1,366 for the year.
