

## Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2017.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the Emerging Markets Fund are charged fund charges. In the year to 31 March 2017 these were:

	% per annum of fund's net asset value
<b>Total fund charges</b>	0.92% <sup>1</sup>
Which are made up of:	
<b>Total management and administration charges</b>	0.92% <sup>1</sup>
Including:	
Manager's basic fee	0.22%
Other management and administration charges	0.70%
<b>Total performance-based fees</b>	0.00%
<b>Other charges</b>	<b>Dollar amount per investor</b>
Administration fee	\$26 per annum <sup>2</sup>
Paper statements fee	\$18 per annum <sup>3</sup>

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing money and transferring it to a KiwiSaver scheme other than the SuperLife KiwiSaver scheme). See the "Other Information – Fees" document on the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Jess had \$10,000 in the fund and did not make any further contributions. At the end of the year, Jess received a return after fund charges were deducted of \$1,671 (that is 16.71% of her initial \$10,000). Jess paid other charges of \$16<sup>4</sup> (Jess received statements and other SuperLife communications electronically and was not charged the paper statements fee). This gives Jess a total return after tax of \$1,655 for the year.
