Castle Point 5 Oceans Fund

Fund update for the quarter ended 30 June 2021

This fund update was first made publicly available on 28 July 2021.

What is the purpose of this update?

This document tells you how the Castle Point 5 Oceans Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Smartshares Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Castle Point 5 Oceans Fund invests in the Castle Point 5 Oceans Fund managed by Castle Point Funds Management Limited with the objective of outperforming (after fees and other expenses, but before tax) the Reserve Bank of New Zealand Official Cash Rate by 3% per annum over the medium to long-term.

Total value of the fund:	\$1,390,620
Number of investors in the fund:	30
The date the fund started:	15 July 2020

What are the risks of investing?

Risk indicator for the Castle Point 5 Oceans Fund¹

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 June 2021. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement for the SuperLife workplace savings scheme for more information about the risks associated with investing in the Scheme.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not applicable
Annual return (after deductions for charges but before tax)	Not applicable
Market index annual return (reflects no deduction for charges and tax)	3.32 %

The market index annual return is based on the annual return of the Reserve Bank of New Zealand Official Cash Rate Index + 3%. Additional information about the market index is available in the 'Other Material Information' document on the offer register at disclose-register.companiesoffice.govt.nz.

What fees are investors charged?

Investors in the Castle Point 5 Oceans Fund are charged fund charges. These are as follows:

	% per annum of fund's net asset value
Total fund charges	1.34%
Which are made up of:	
Total management and administration charges	1.34%
Including:	
Manager's basic fee	1.33%
Other management and administration charges	0.01%
Other charges	Dollar amount per investor
Administration fee	\$12 per annum ²

Investors may also be charged individual action fees for specific actions or decisions (for example, for transferring money to a KiwiSaver scheme other than the SuperLife KiwiSaver scheme). See the Product Disclosure Statement for the SuperLife workplace savings scheme for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

The fees set out above include GST where applicable.

Example of how this applies to an investor

Jess had \$10,000 in the fund on 15 July 2020 and did not make any further contributions. On 30 June 2021, Jess received a return after fund charges were deducted of \$1,138 (that is 11.38% of her initial \$10,000). Jess paid other charges of \$11. This gives Jess a total return after tax of \$1,127 for the 11 months and 15 days.

What does the fund invest in?

Actual investment mix

This shows the types of assets that the fund invests in.

Target investment mix

Further information

You can also obtain this information, the Product Disclosure Statement for the SuperLife workplace savings scheme, and some additional information, from the offer register at disclose-register.companiesoffice.govt.nz.

Notes

- 1 Market index returns (as well as actual returns) have been used to complete the risk indicator, as the fund has not been in existence for 5 years. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. The risk indicator for the fund uses 4 years and 1 month of market index returns.
- 2 The administration fee in the year to 31 March 2021 is stated net of an income tax deduction that was applied in calculating your PIE tax payable (the deduction was paid to us). On 1 April 2021, we stopped doing this – this means the total fee you will now pay us will be lower.
- 3 The top 10 investments listed in the table exclude current assets and current liabilities, and as a result do not sum to 100%.
