S&P/NZX NZ Government Bond Fund

Fund update for the quarter ended 30 June 2021

This fund update was first made publicly available on 28 July 2021.

What is the purpose of this update?

This document tells you how the S&P/NZX NZ Government Bond Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Smartshares Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The S&P/NZX NZ Government Bond Fund invests in New Zealand bonds and designed to track the return (before tax, fees and other expenses) on the S&P/NZX NZ Government Bond Index.

Total value of the fund:	\$86,733
Number of investors in the fund:	11
The date the fund started:	15 July 2020

What are the risks of investing?

Risk indicator for the S&P/NZX NZ Government Bond Fund¹

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 June 2021. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement for the SuperLife workplace savings scheme for more information about the risks associated with investing in the Scheme.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not applicable
Annual return (after deductions for charges but before tax)	Not applicable
Market index annual return (reflects no deduction for charges and tax)	-3.57%

The market index annual return is based on the annual return of the S&P/NZX NZ Government Bond Index. Additional information about the market index is available in the 'Other Material Information' document on the offer register at disclose-register.companiesoffice.govt.nz.

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the S&P/NZX NZ Government Bond Fund are charged fund charges. In the year to 31 March 2021 these were:

	% per annum of fund's net asset value
--	---------------------------------------

Total fund charges	0.44%
---------------------------	-------

Which are made up of:

Total management and administration charges	0.44%
--	-------

Including:

Manager's basic fee	0.43%
Other management and administration charges	0.01% ²

Other charges	Dollar amount per investor
---------------	----------------------------

Administration fee	\$12 per annum ³
--------------------	-----------------------------

Investors may also be charged individual action fees for specific actions or decisions (for example, for transferring money to a KiwiSaver scheme other than the SuperLife KiwiSaver scheme). See the Product Disclosure Statement for the SuperLife workplace savings scheme for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

The fees set out above include GST where applicable.

Example of how this applies to an investor

Jess had \$10,000 in the fund on 15 July 2020 and did not make any further contributions. On 30 June 2021, Jess received a return after fund charges were deducted of - \$297 (that is -2.97% of her initial \$10,000). Jess paid other charges of \$11. This gives Jess a total return after tax of - \$308 for the 11 months and 15 days.

Further information

You can also obtain this information, the Product Disclosure Statement for the SuperLife workplace savings scheme, and some additional information, from the offer register at disclose-register.companiesoffice.govt.nz.

Notes

- Market index returns (as well as actual returns) have been used to complete the risk indicator, as the fund has not been in existence for 5 years. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. The risk indicator for the fund uses 4 years and 1 month of market index returns.
- We charge fixed fund charges that cover normal fund operating costs. For disclosure purposes, supervisor, audit and legal costs are not included in the manager's basic fee, but are included in the other management and administration charges.
- The administration fee in the year to 31 March 2021 is stated net of an income tax deduction that was applied in calculating your PIE tax payable (the deduction was paid to us). On 1 April 2021, we stopped doing this – this means the total fee you will now pay us will be lower.
