What are the risks of investing?

Risk indicator for the S&P/NZX 50 Fund¹

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2021. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the 'Other Material Information' document on the offer register at disclose-register.companiesoffice.govt.nz for further information about the risks of investing in the SuperLife workplace savings scheme.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not applicable
Annual return (after deductions for charges but before tax)	Not applicable
Market index annual return (reflects no deduction for charges and tax)	28.21%

The market index annual return is based on the annual return of the S&P/NZX 50 Index. Additional information about the market index is available in the 'Other Material Information' document on the offer register at disclose-register.companiesoffice.govt.nz.

What fees are investors charged?

Investors in the S&P/NZX 50 Fund are charged fund charges. In the year to 31 March 2021 these were:

	% per annum of fund's net asset value
Total fund charges	0.49%
Which are made up of:	
Total management and administration charges	0.49%
Including:	
Manager's basic fee	0.48%
Other management and administration charges	0.01% ²
Other charges	Dollar amount per investor
Administration fee	\$12 per annum ³

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing money and transferring it to a KiwiSaver scheme other than the SuperLife KiwiSaver scheme). See the Product Disclosure Statement for the SuperLife workplace savings scheme for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

The fees set out above include GST where applicable.

Example of how this applies to an investor

Jess had \$10,000 in the fund on 15 July 2020 and did not make any further contributions. On 31 March 2021, Jess received a return after fund charges were deducted of \$851 (that is 8.51% of her initial \$10,000). Jess paid other charges of \$8. This gives Jess a total gain after tax of \$843 for the 8 months and 15 days.

Notes

- Market index returns (as well as actual returns) have been used to complete the risk indicator, as the fund has not been in existence for 5 years. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. The risk indicator for the fund uses 4 years and 4 months of market index returns.
- We charge fixed fund charges that cover normal fund operating costs. For disclosure purposes, supervisor, audit and legal costs are not included in the manager's basic fee, but are included in the other management and administration charges.
- The administration fee in the year to 31 March 2021 is stated net of an income tax deduction that was applied in calculating your PIE tax payable (the deduction was paid to us). On 1 April 2021, we stopped doing this – this means that if your prescribed investor rate is 10.5%, 17.5% or 28%, the total fee you will now pay us will be lower.
