

SuperLife workplace savings scheme

SuperLife High Growth Fund

Fund update for the quarter ended 31 December 2025

This fund update was first made publicly available on 12 February 2026.

What is the purpose of this update?

This document tells you how the SuperLife High Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Smartshares Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

Invests in growth assets and is designed for investors that want an aggressive investment option that invests in shares and property. Negative annual returns may occur once in every 2-4 years on average.

Total value of the fund:	\$176,387,794
Number of investors in the fund:	2,556
The date the fund started:	15 September 2013

What are the risks of investing?

Risk indicator for the SuperLife High Growth Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

Annual return graph

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 December 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement for the SuperLife workplace savings scheme for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	8.76%	13.13%
Annual return (after deductions for charges but before tax)	9.46%	14.17%
Market index annual return (reflects no deduction for charges and tax)	10.43%	15.23%

The market index return is a composite of benchmark index returns, weighted for the fund's target investment mix (also known as target asset allocation). The specific benchmark indices used for each asset class are defined in the Statement of Investment Policy and Objectives (SIPO).

The SIPO and further additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz.

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 December 2025.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the SuperLife High Growth Fund are charged fund charges. In the year to 31 March 2025 these were:

	% per annum of fund's net asset value
Total fund charges	0.63%
Which are made up of:	
Total management and administration charges	0.63%
Including:	
Manager's basic fee	0.61%
Other management and administration charges	0.02% ¹
Other charges	Dollar amount per investor
Administration fee	\$12 per annum

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Product Disclosure Statement for the SuperLife workplace savings scheme for more information about those fees.

The fees set out above include GST where applicable.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Jess had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jess received a return after fund charges were deducted but before tax of \$1,417 (that is 14.17% of Jess's initial \$10,000). Jess also paid \$12 in other charges. This gives Jess a total return after tax of \$1,301 for the year.

Further information

You can also obtain this information, the Product Disclosure Statement for the SuperLife workplace savings scheme, and some additional information, from the offer register at disclose-register.companiesoffice.govt.nz.

Notes

- These charges refer to the normal fund operating costs that are charged to the fund. For disclosure purposes, supervisor, audit and legal costs are not included in the manager's basic fee, but are included in the other management and administration charges. Some of these are fixed costs so the amount shown can range from 0% up to the total fund charges depending on the total value of the fund.
- The 'other' category refers to an investment in infrastructure. The underlying investments are infrastructure securities listed in developed countries.
- John Raby was appointed as a director with effect from 1 October 2025, replacing Guy Elliffe who ceased to be a director on 31 December 2025. Lisa Turnbull was appointed as Chief Executive Officer of Smart with effect from 16 October 2025
